Candle Care Guidelines:
CAUTION: Candle: Never leave a burning candle unattended. Trim wick to ¼"(5mm) prior to lighting. If candle smokes, extinguish and trim wick. For the rst burn, allow the wax to melt to the edge for an even burn throughout, and to avoid tunnelling. Keep the candle free of matches and other ammable material. Burn only on a stable heat resistant surface. Keep out of reach of children and pets. Do not burn candle in a draught. Do not touch or move candle while burning, or if wax is hot. For best results burn candle for 4 hours at one time. Candles should be burned away from other sources of heat such as tv sets and direct sunlight. Ensure candles are placed at least 4"(10cm) apart. Do not allow candles to burn to completion, please ensure there is at least 1cm of wax remaining.
